

Visiting the Embassy of the Arab Republic of Egypt and Learning about Education, Culture and More

Students from Metropolitan Den-enchofu High School visited the Embassy of the Arab Republic of Egypt.

The students gained a broad understanding of Egypt through the Embassy's lesson on a variety of facets including education, culture, climate, and tourist spots. They also took a quiz on things Egypt was first at and were surprised and amazed at the many products that originated in Egypt. During the breaks in the lesson, students enjoyed hibiscus juice and sweets, and experienced Egyptian culture with their five senses.

After the lesson, students from the koto (Japanese harp or zither) club played for the Embassy to express their gratitude.
